

A Leading Non-Profit Organization

Driving **Financial Transparency and Operational Efficiency** with Dynamics 365 Finance & Supply Chain Management

About the Company

A large non-profit organization addressing hunger and supporting education through mid-day meals, COVID-relief, and Anganwadi programs. Operating across 13 states, 3 union territories, and 198 locations in India, it manages 100+ kitchens and a workforce of over 5,000 employees, serving nearly 2 million meals every day.

Solution

Unified Finance & Operations Platform 01

Implemented D365 F&SCM to replace fragmented legacy systems and centralize finance, procurement, and operations across 100+ kitchens.

Workflow Automation 02

Automated purchase requisition, order, and approval processes integrated with Outlook, reducing manual intervention and improving turnaround time.

Cost-Per-Meal (CPM) Tracker 03

Custom module to monitor direct and indirect meal costs in real time, driving cost optimization and efficiency.

Department & Program-Wise Tracking 04

Financial dimensions enabling detailed tracking across departments, kitchens, and programs for better transparency.

Donation & Grant Management 05

Not-for-Profit tool to track donations, government grants, and non-grant funds with audit-ready transparency.

Inventory & Production Optimization 06

Centralized recipe management, shelf-life reporting, and real-time cost comparison between estimated and actual production costs.

Inter-Kitchen Automation 07

Automated purchase and sales orders between kitchens to streamline internal transactions and financial accuracy.

Financial Control & Insights 08

Centralized Chart of Accounts (COA), UTI-linked payment tracking, and Power BI dashboards for real-time reporting and operational insights.

Results and Outcomes

- Real-time Cost-Per-Meal tracking for improved transparency and efficiency.
- Automated workflows reduced procurement time and manual errors.
- Unified reporting across kitchens, programs, and departments.
- Enhanced traceability in donation and fund management.
- Improved decision-making through actionable analytics.
- Increased accountability and process standardization across all kitchens.
- Strengthened alignment with the organization's mission to eliminate classroom hunger at scale.
