 **DynaTech** | Systems

Power Apps Accelerator for Dynamics 365

- › The Power Apps Accelerator brings together multiple business-critical applications into a unified, low-code platform.
- › Built to enhance operational efficiency and reduce manual dependencies, it enables organizations to automate key processes—from security management to finance and HR—through smart, connected Power Apps integrated with Dynamics 365 and Power Automate.

Azure Key Vault

Automates secret renewals, expiry alerts, and inventory management across app registrations and subscriptions.

Quality Control

Digitizes inspection workflows with real-time data capture, photo documentation, and seamless sync to Dynamics 365 F&O.

Expense Invoice Management

Streamlines employee and vendor expense processing with AI-powered OCR, validations, and multi-level approvals.

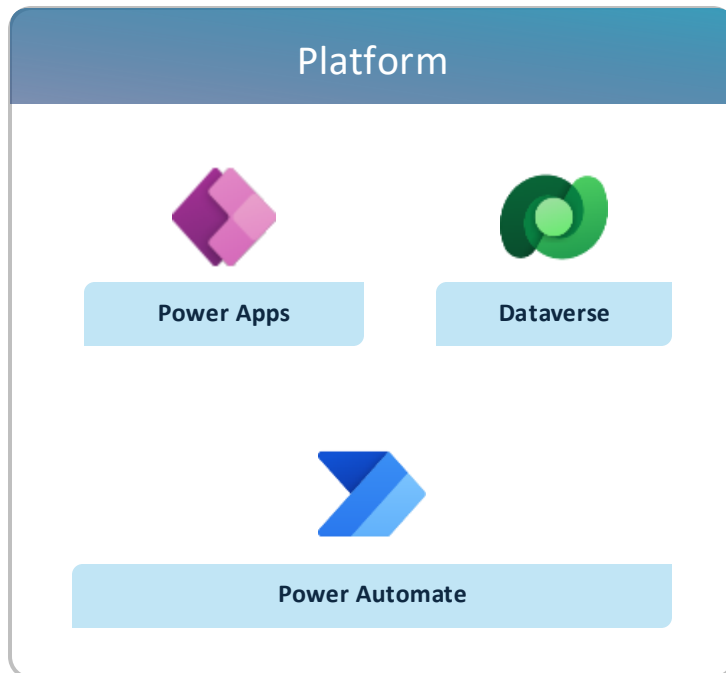

Leave Management

Simplifies leave requests, approvals, and tracking through automated workflows integrated with Power Apps and Teams.

Automates key/secret renewal with expiry alerts and inventory listings.

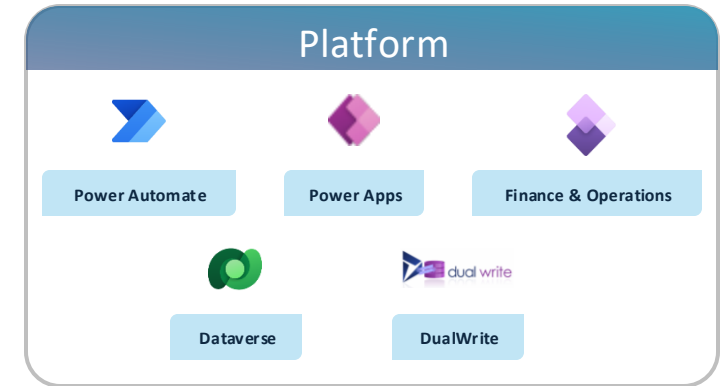

- › **Secret Renewal:** Auto-update secrets in app registrations.
- › **Expiry Alerts:** Email/Teams alerts before expiry.
- › **Key Vault Automation:** Auto-renew Key Vault items.
- › **Inventory Overview:** View app secrets and certificates by expiry.
- › **Consolidated Reporting:** Monitor all Key Vaults by subscription.

Manages inspection processes with documentation and instant sync to F&O.

- › **Custom QC Workflows:** Define test cases and inspection criteria.
- › **Data Capture:** Log inspection results directly from Power App.
- › **Friendly UI:** Non-technical users can operate seamlessly.
- › **Live Sync with F&O:** Real-time DualWrite integration for consistency.
- › **Photo Upload:** Attach photos/documents to each inspection record.

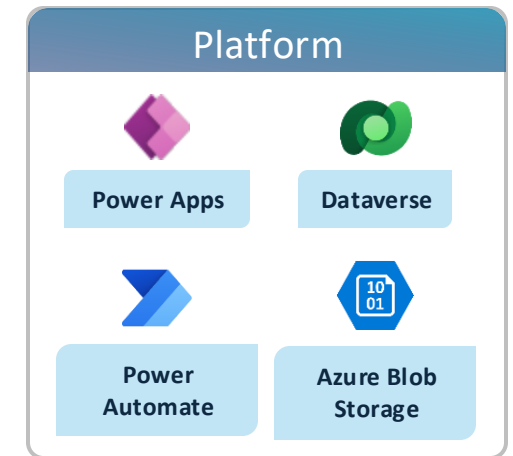

The screenshot shows the 'Quality Orders' section of the DynaTech | Systems application. The header includes the company name and a dropdown menu for 'Quality Orders'. Below the header, there are tabs for 'Purchase', 'Inventory', 'Route', 'Production', 'Sales', 'Sales Return', 'Quarantine', 'Co-product production', and 'Transfer'. The 'Inventory' tab is selected. A search bar is present, and a list of 'Steel pressed frame' items is displayed, each with a 'Quality Order' and 'Reference Number'. A 'Scan' button is visible at the bottom right.

The screenshot shows the 'Inventory (000131)' inspection form. The header includes the title 'Inventory (000131)' and a refresh icon. The form is divided into two main sections. The left section contains checkboxes for 'Color, Gardner Method' and 'Aerobic Plate Count'. The right section is titled 'Color, Gardner Method' and contains fields for 'Test Name' (QSTST-01606), 'Test Spec' (Min : 0, Max : 0), and 'Procedure'. There is an 'Add Image' button and a 'Take Photo' button. Below these are two rows of 'Lab oven' and 'Instrument' fields, each with a 'Scan' button. At the bottom, there are 'Result' and 'Validate By' fields, and a 'Confirm' button.

Manages employee and vendor expense workflows with validations, OCR, and reporting.

- › **Unified Submission:** Employees and vendors submit expenses with supporting documents.
- › **OCR Extraction:** Auto-extract key invoice data using AI for faster processing.
- › **Role-Based Workflow:** Enables multi-level approvals from Accountants to Directors.
- › **Status Tracking:** Displays real-time status: Pending, Approved, Rejected, or Paid.
- › **Analytics & Export:** Generate expense reports with filters and export for audits.
- › **Access Control:** Tailored views and permissions for each role.
- › **Mobile Support:** Fully functional on smartphones and tablets.
