Real-time shipment tracking. Here all the details like item id, tracking id, weight, date of booking, date of delivery, address for delivery, along with total cost.

The screenshot displays the Dynamics 365 Finance and Operations user interface. The top navigation bar includes the 'Finance and Operations' title, a search bar, and user information 'FRSI | Contoso Consulting FR'. The main content area shows a 'Tracking Data' tab selected, with a breadcrumb trail: '< Save Tracking Data Package Summary Options'. Below this, the 'Parent Tracking Id' is '000371 : Face wipes'. The view is set to 'Standard view'. A table lists shipment details:

SalesId	ItemId	Parent Tracking Id	Weight	Height	Width	Lenght	Code	
000371	Face wipes	1Z6417X8033583	0.00	0.00	0.00	0.00	03	UF

A modal dialog box is overlaid on the table, displaying the message: 'Code :003 Description :Shipment Ready for UPS'. A 'Close' button is located at the bottom right of the modal.

Sales orders can be filtered out of this to track the location and status of shipments if a customer raises a query for his/her shipment.
