

Empower Legacy Systems with Microsoft Fabric Integration

Elevate Your Data Strategy and Maximize ROI

As a Microsoft Solutions Partner, DynaTech Systems provides advanced Microsoft Fabric solutions tailored for businesses using legacy on-premises systems, SAP, Oracle, or Salesforce. Microsoft Fabric unifies data management and analytics, helping businesses achieve outcomes including

Optimized Operations

Simplified data flows and reduced complexities enhance resource efficiency and cost savings.

Customer-Centric Insights

Harness data-driven insights to better understand customer needs and refine engagement strategies.

Productivity Boost

AI-powered analytics and automated workflows allow teams to focus on high-impact tasks, leading to increased productivity.

Microsoft Fabric Key Components

Data Engineering, Integration & BI

Leverage data engineering, real-time integration, and business intelligence for unified data analysis and optimized decision-making.

Synapse Data Warehouse & Data Lake

Centralized, secure, and scalable storage that supports structured and unstructured data, enabling comprehensive data governance.

AI-Powered Analytics (Copilot in Fabric):

Enhanced insights through advanced AI, transforming raw data into strategic intelligence.

DynaTech's Azure Expertise

Azure Infrastructure

Scalable, secure Azure environments optimized with automation to support enterprise-level data demands.

Synapse Analytics

Holistic data management and analytics platform for handling big data, with powerful integration capabilities and support for modern data warehousing needs.

Data Lake

Offers governed storage solutions that adapt to complex data structures, facilitating advanced data storage and security for legacy systems.

Achieve Transformative Results with Microsoft Fabric

379%

ROI with a payback period of under six months.

Faster Data Integration, accelerating insights and decision-making.

80%

99.9%

Uptime for uninterrupted access to real-time data and analytics

Reduction in Security Incidents, enhancing compliance and data protection.

75%

Empowering Clients with DynaTech's Microsoft Fabric Solutions
