

Accelerate Business

What Sets Us Apart

DynaTech's Competitive Advantage

Backed by years of expertise and a team of skilled professionals, DynaTech Systems stands at the forefront of the IT services industry. Our extensive portfolio includes cutting-edge solutions in cloud, ERP and CRM implementation, data analytics, artificial intelligence, and more.

We prioritize long-term partnerships built on collaboration and trust, delivering innovative, scalable, and secure solutions to keep our clients ahead in a rapidly evolving landscape.

Clinical Analytics

Transforming healthcare with unified clinical, financial, and operational insights

Unlocking Insights Across Healthcare Data

Healthcare organizations face fragmented systems that limit data-driven decisions. Clinical Analytics unifies clinical, financial, and operational data into one platform—enabling secure interoperability, advanced analytics, and actionable insights.

Seamless Deployment & Integration

Deploy healthcare components quickly and integrate third-party EMRs using the Data Integration Toolkit.

Clinical Data Insights with AI

Convert unstructured notes into structured insights using Azure Text Analytics for health and embedded Power BI.

Connected Health Data Interoperability

Use FHIR standards and Azure Health Data Services to integrate devices, EMRs, and imaging into unified data lakes.

Operational Data Insights

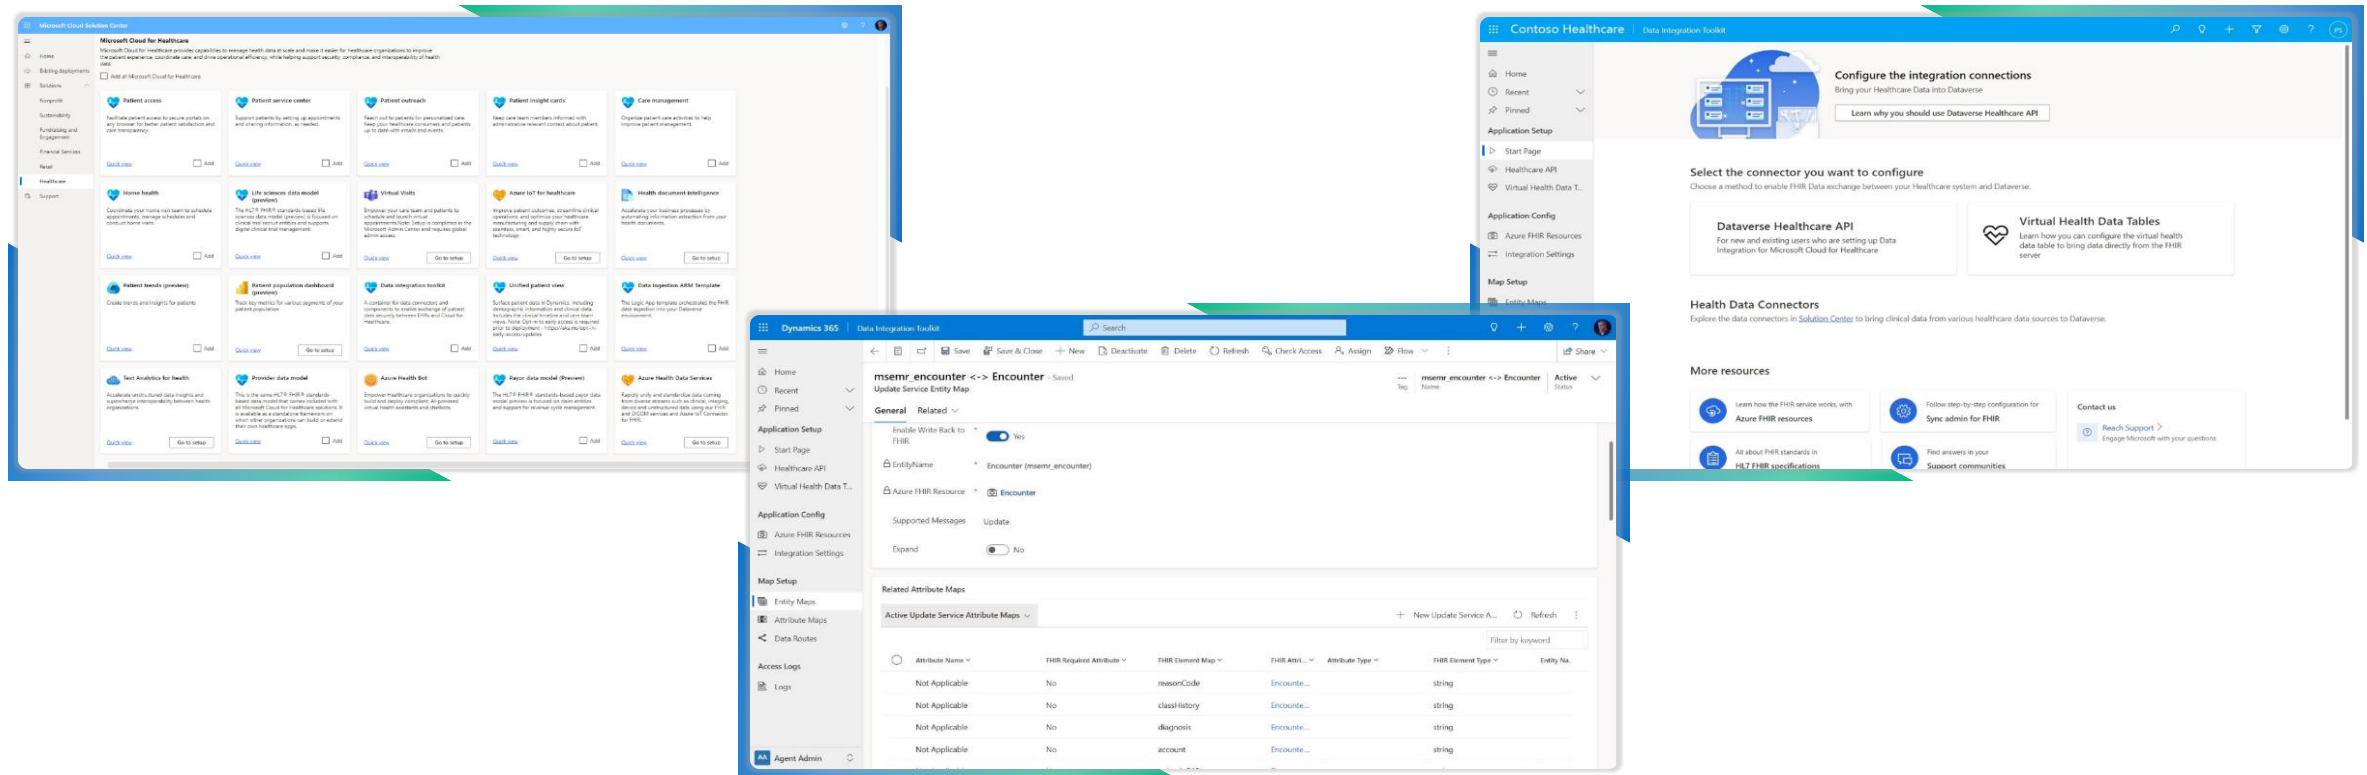

Apply predictive models to segment patients, reduce no-shows, and optimize costs with real-time dashboards.

Advanced Analytics with Synapse & Power BI

Leverage Azure Synapse and Power BI to unify data lakes, apply extended models, and build dashboards for care teams.

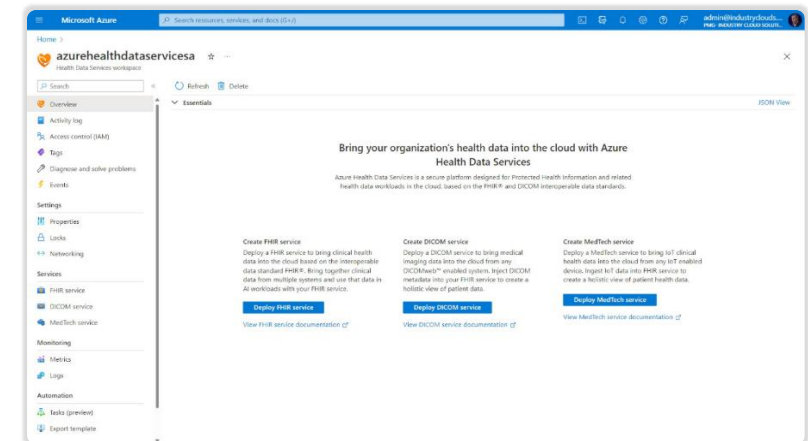

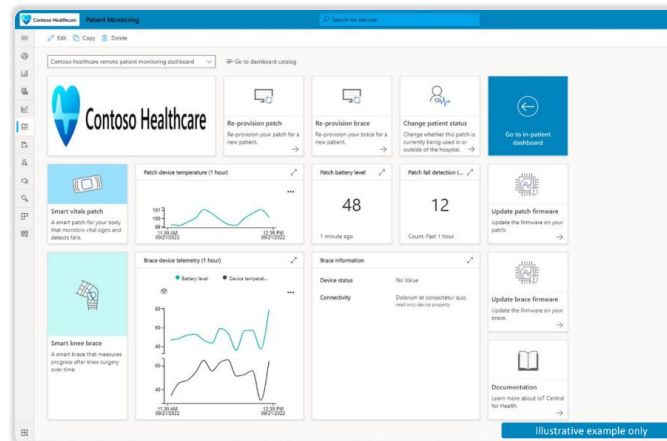

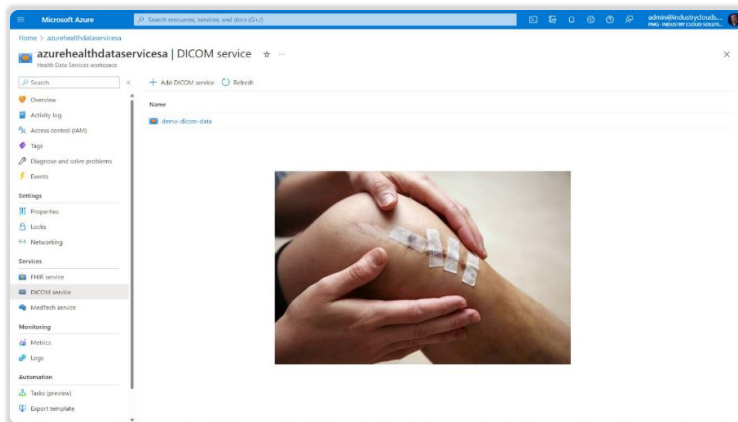

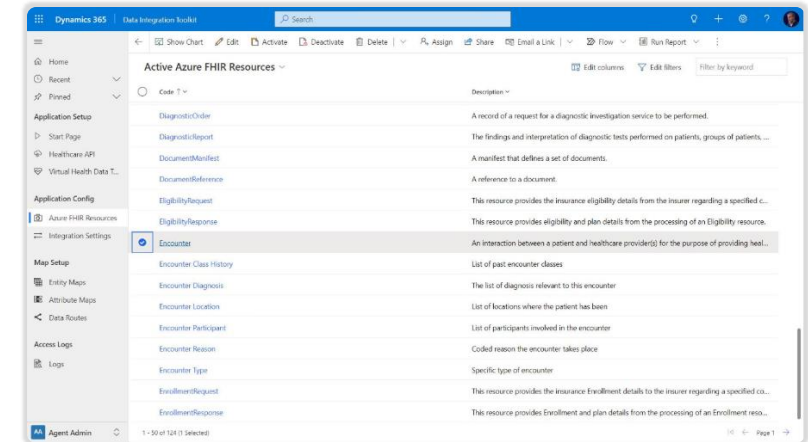

Deploy and Connect with Ease

- ◆ Use Solution Center to deploy healthcare components
- ◆ Explore data models with Power Platform tools
- ◆ Configure EMR integrations with Data Integration Toolkit

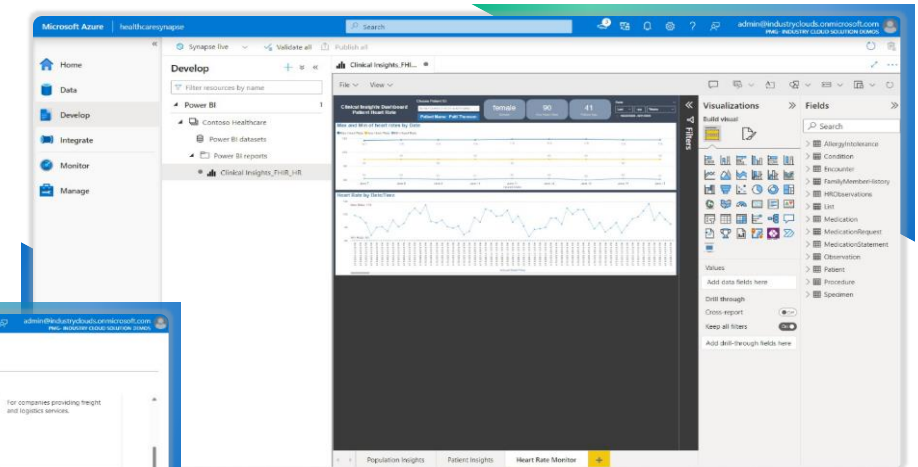

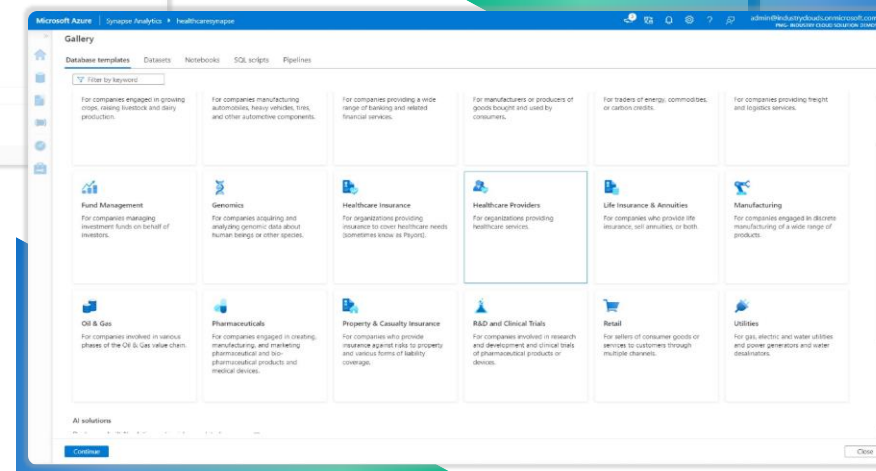

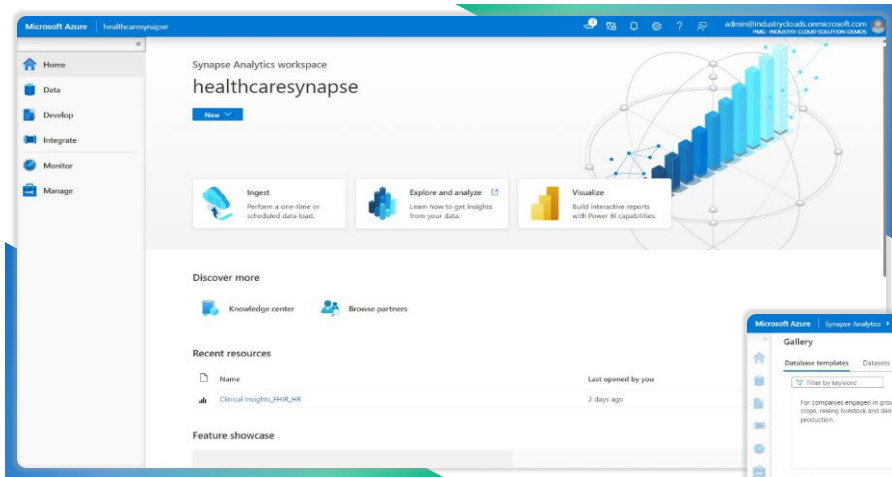

Secure and Scalable Data Sharing

- ◆ Enable FHIR-based interoperability across systems
- ◆ Map attributes like allergies and tolerances for accuracy
- ◆ Connect devices, EMRs, and services through Azure Health Data Services

Unified Analytics Environment

- ◆ Unify data lakes with Azure Synapse for healthcare models
- ◆ Explore entities with extended data models (life sciences, genomics, insurance)
- ◆ Build Power BI dashboards to share insights across teams

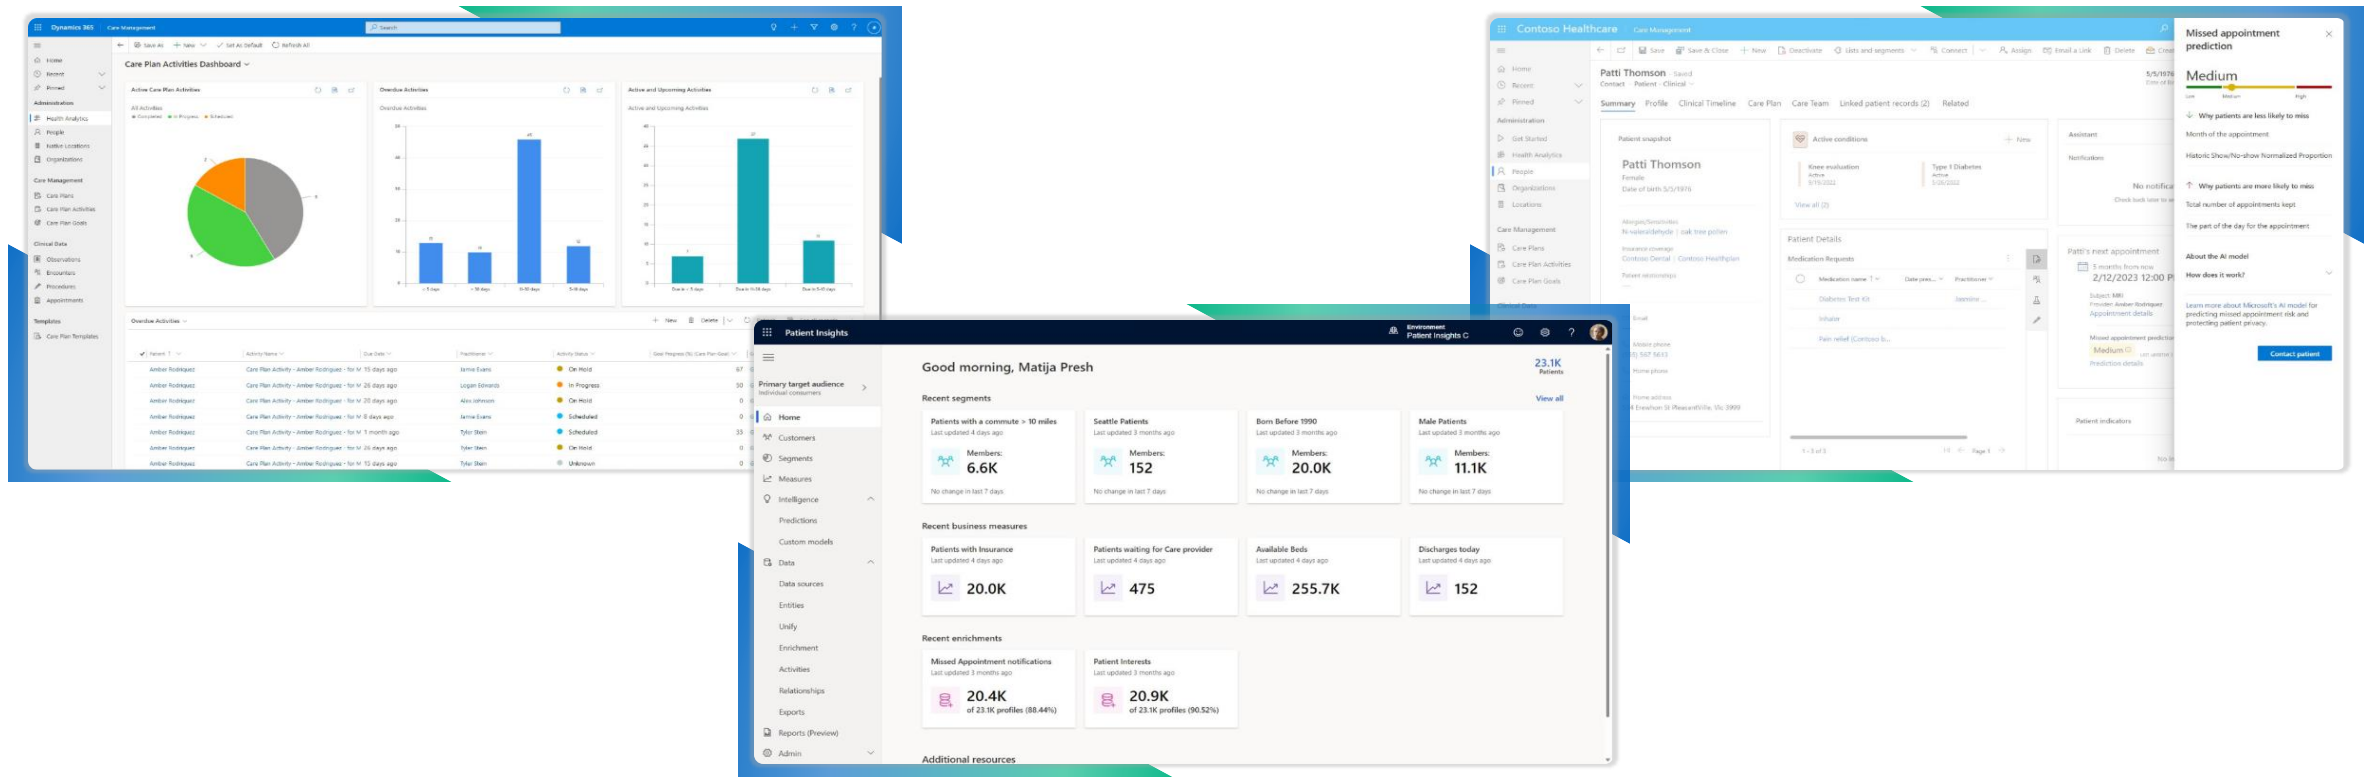

- ◆ Use Text Analytics for health to structure clinical notes
- ◆ Combine structured + unstructured data for full visibility
- ◆ Deliver insights with embedded Power BI dashboards

Improve Service Delivery at Scale

- ◆ Define patient segments using predictive models
- ◆ Track cost of care, attendance, and operational trends
- ◆ Trigger alerts and engagement strategies to reduce no-shows

Smarter Decisions with Connected Analytics

**Unified Records**

Clinical, financial, and operational insights in one platform

**Predictive Power**

AI-driven models to anticipate risks and outcomes

**Improved Care**

Actionable dashboards supporting teams across the ecosystem

Transform Healthcare with Clinical Analytics

- ◆ Connect your data, apply predictive models, and accelerate your healthcare transformation with Clinical Analytics.
- ◆  Contact us today to get started.
