Microsoft Cloud for Healthcare Personalized Care

Personalized Care Powered by Data

Healthcare providers need to proactively engage patients and deliver tailored support. Missed appointments and siloed systems can disrupt care journeys. Microsoft Cloud for Healthcare uses compliant Azure Health Data Services to unify data, empower patients, and streamline virtual care—making personalized care possible.

Unified Patient Records

Access health conditions, test results, appointment history, and reminders in a single record for faster decisions.

Patient Self-Service Portal & Virtual Visits

Provide patients with a portal to view records, manage appointments, and book visits through Azure Health Bot.

Patient Segmentation & Outreach

Automatically group patients needing more support using data like missed appointments and clinical conditions.

Virtual Consultations with Teams

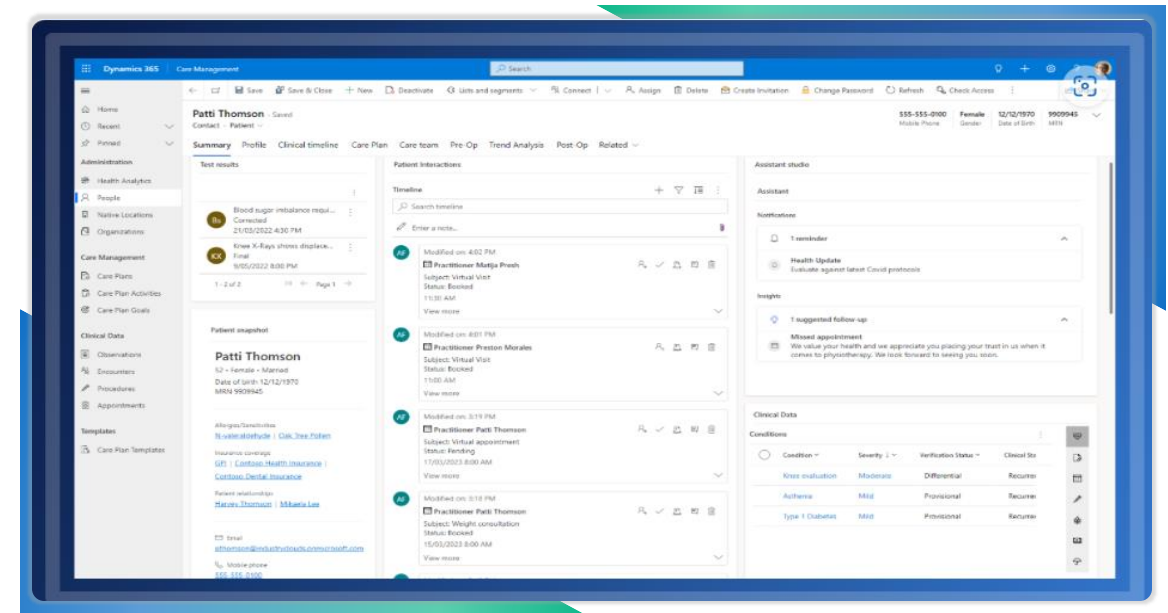

Enable secure online appointments where patients and providers connect, collaborate, and finalize care plans.

Personalized Care Journeys

Design tailored engagement with reminders, virtual visit suggestions, and real-time lab result notifications.

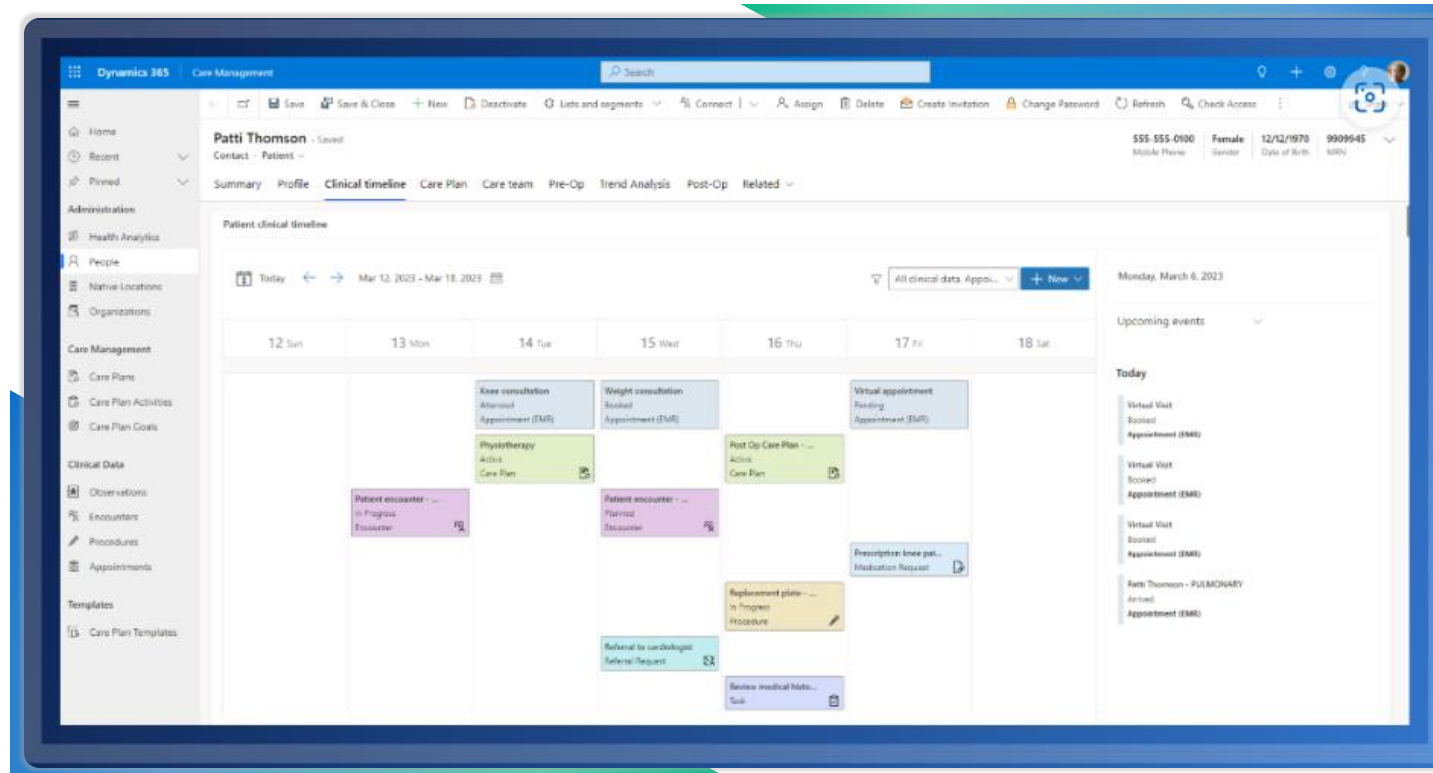

One View of Patient Health

- ◆ Access conditions, test results, and appointment history in one record
- ◆ System-generated reminders support proactive engagement
- ◆ Prevent gaps in care with accessible history of visits

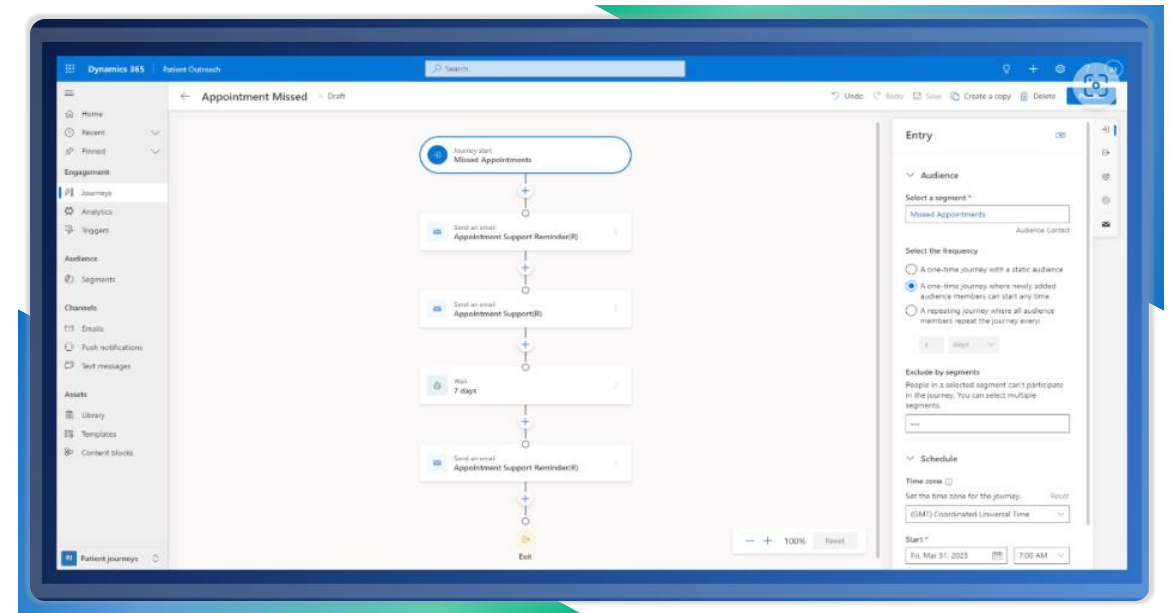

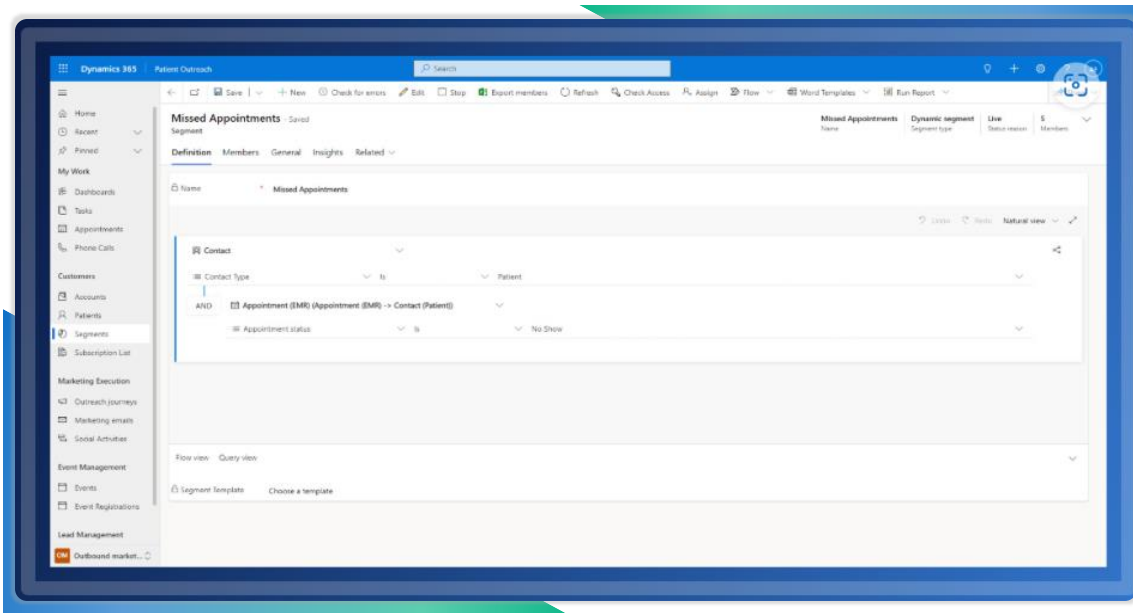

Targeted Patient Support

- ◆ Automatically segment patients needing more engagement
- ◆ Analyze missed appointments and clinical data for insights
- ◆ Outreach managers connect directly to keep patients on track

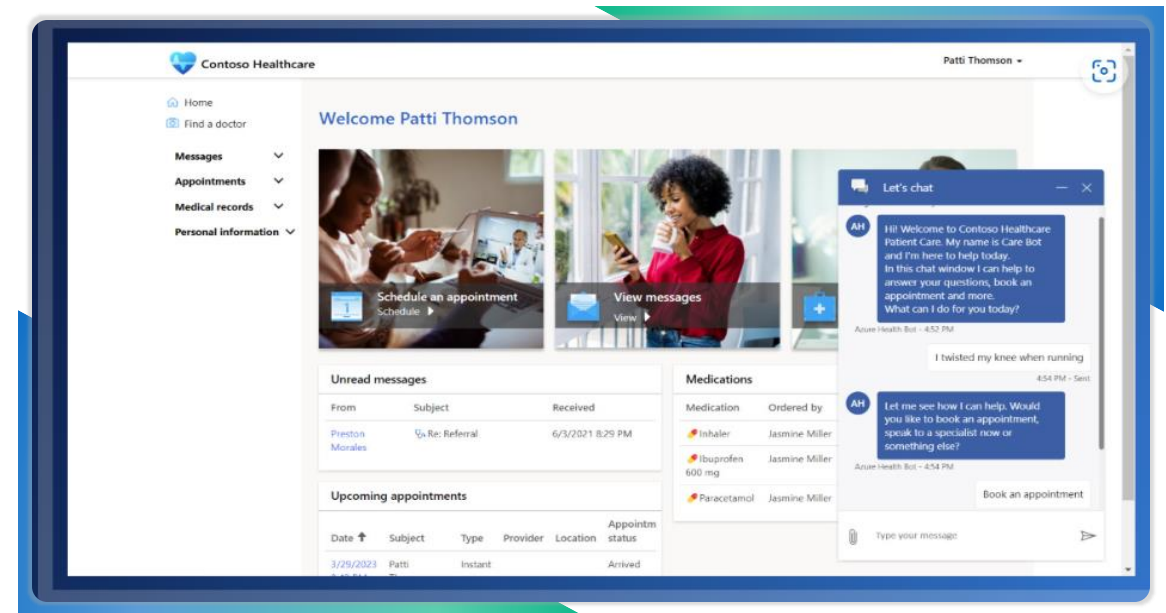

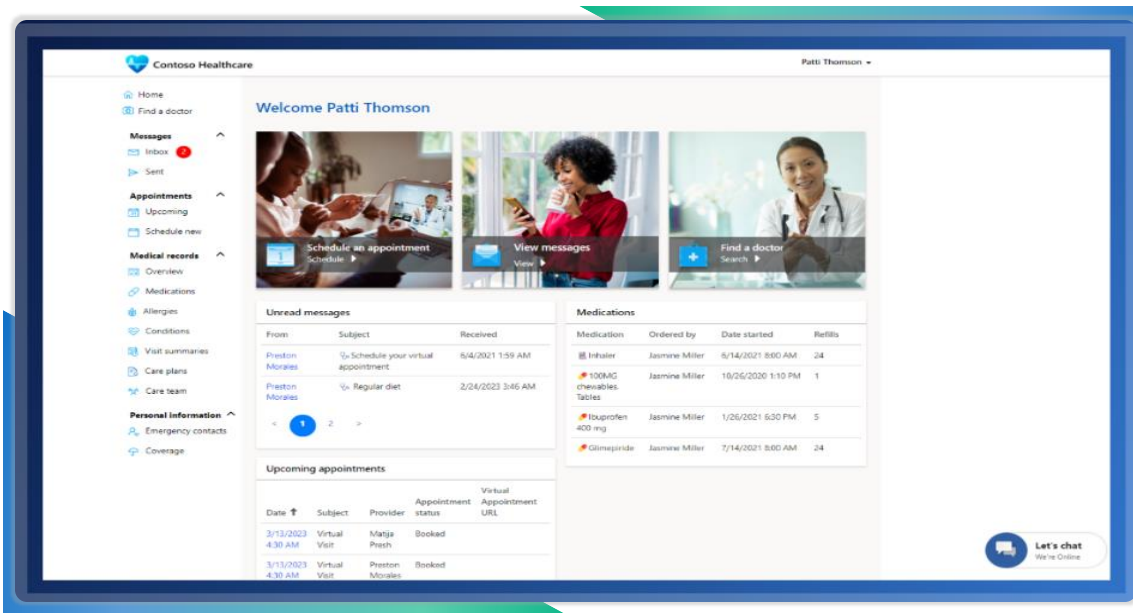

Tailored Communication & Alerts

- ◆ Create customized journeys with reminders and visit suggestions
- ◆ Notify patients in real time about lab result changes
- ◆ Ensure timely care with automated engagement pathways

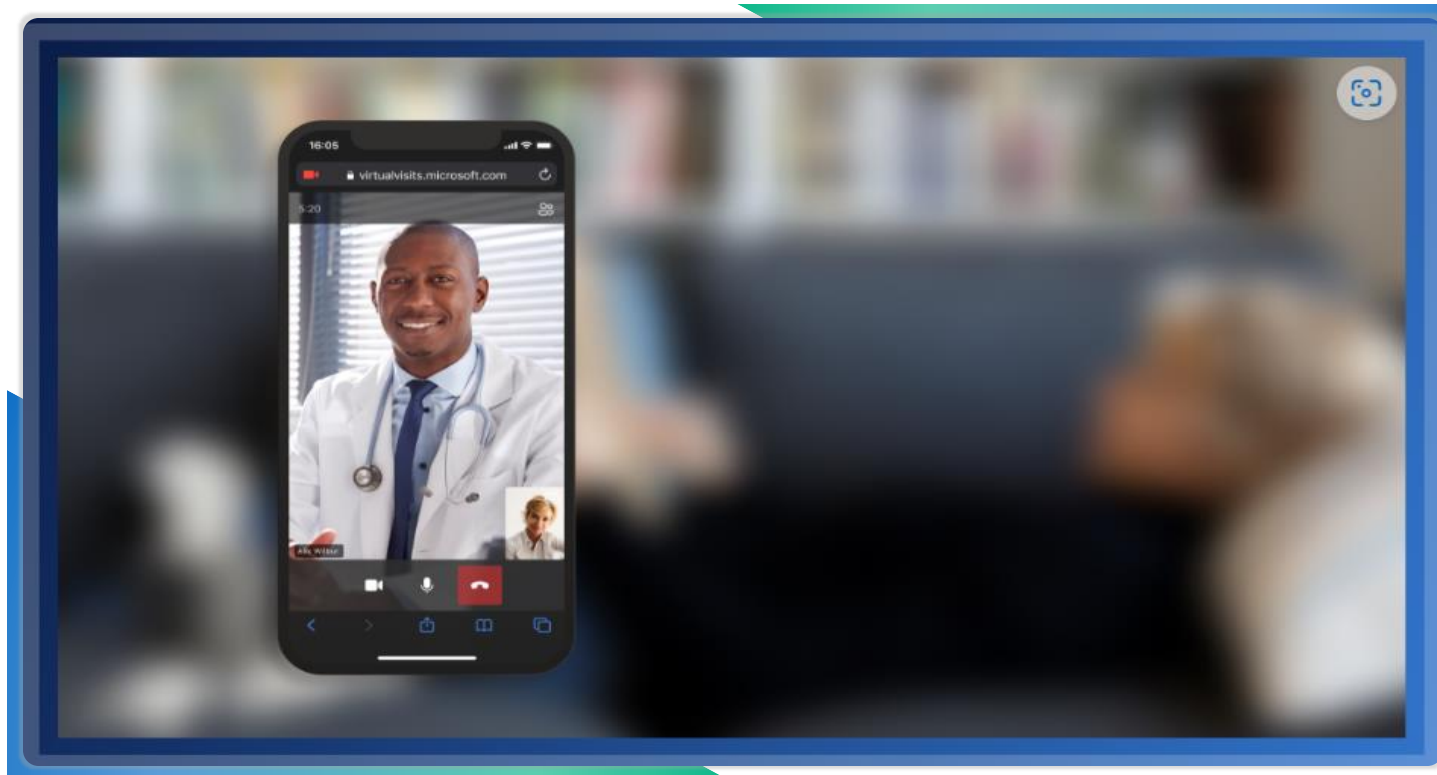

Empowering Patients with Digital Tools

- ◆ Access records, manage appointments, and message providers in one portal
- ◆ Use Azure Health Bot to book virtual visits instantly
- ◆ Receive confirmations and reminders to stay on track

Streamlined Clinical Support

- ◆ Join appointments virtually through Microsoft Teams
- ◆ Physicians and patients collaborate securely on treatment plans
- ◆ Reduce clinic visits with effective virtual consultations

Delivering Personalized, Connected Care
