Microsoft Cloud for Healthcare Care Coordination

Connected Care Through Unified Data

Healthcare teams need a complete patient view to make informed, timely decisions. Fragmented systems slow care delivery and reduce effectiveness. With Microsoft Cloud for Healthcare, data from across the ecosystem is connected into a single profile—empowering collaboration, proactive care planning, and better outcomes.

Data Integration & Interoperability

Consolidate patient records from 30+ sources using FHIR standards for a unified, real-time health profile.

Care Circle Collaboration

Connect physicians, advocates, and family members through Microsoft Teams for secure, seamless communication.

Comprehensive Patient View

Display snapshots, clinical history, conditions, and lifestyle data within the Care Management module.

Care Plan Management & Monitoring

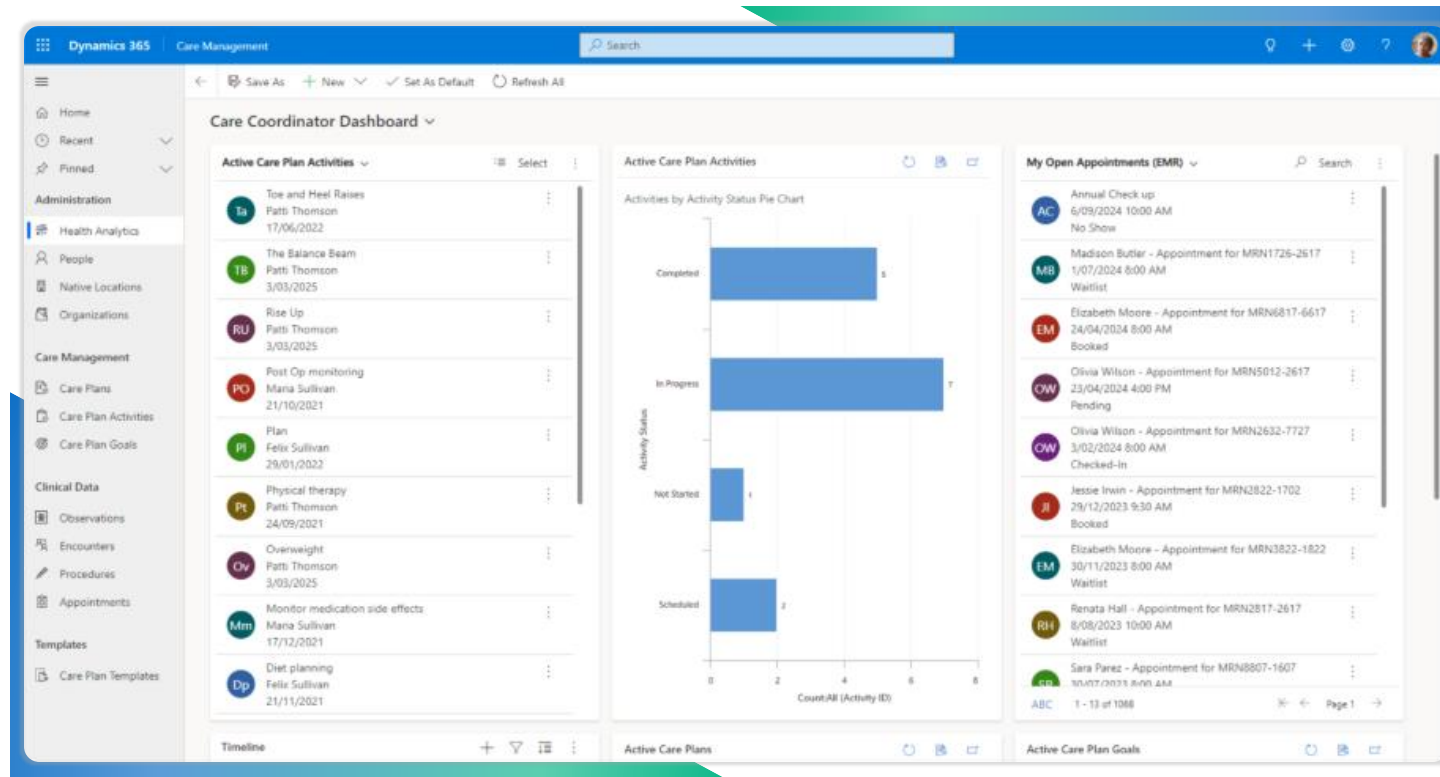

Track treatment goals, monitor progress, and update plans instantly across the full care team.

Patient Timeline & Events Tracking

Provide a clear timeline of past consultations, visit outcomes, and upcoming appointments for better planning.
