Smarter Documentation with Medical Audio Analyzer

Smarter Documentation for Better Care

Manual note-taking and record reviews slow providers down and risk missing key details. The Medical Audio Analyzer transforms patient-doctor conversations into structured insights, ensuring providers focus on care, not paperwork.

Drag & Drop Meeting Recordings

Upload consultation audio files instantly into the analyzer.
(Timestamp: 0:00–0:08)

Intelligent Highlighting & Summaries

Detect key participants, symptoms, treatments, and prescribed care — summarized automatically. (Timestamp: 2:17–2:21)

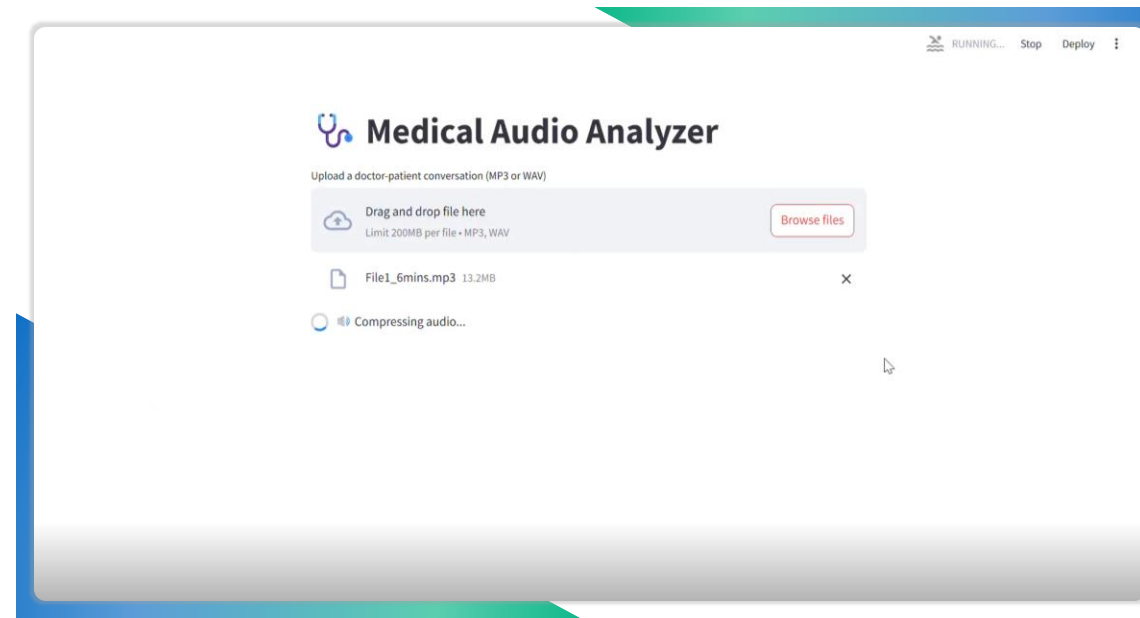

Automatic Transcription

Generate clean, searchable transcripts of full conversations. (Timestamp: 2:08–2:17)

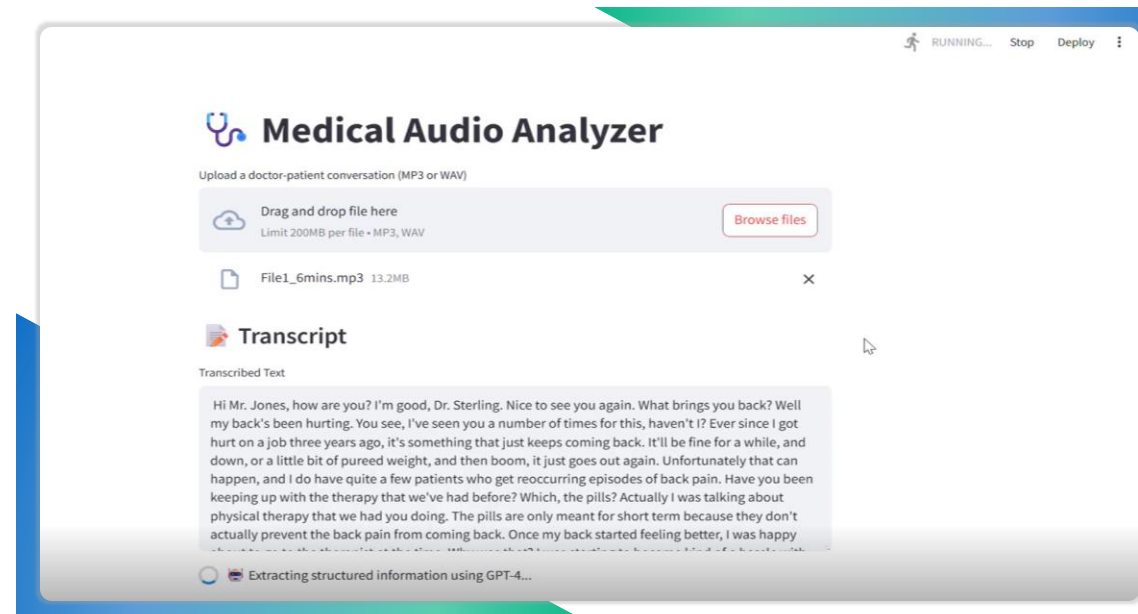

Seamless Upload Experience

- ◆ Drop recorded consultations directly into the analyzer
- ◆ Eliminate time-consuming manual note review
- ◆ Start analysis instantly without extra setup

Fast, Accurate Documentation

- ◆ Clean, searchable transcripts generated in seconds
- ◆ Capture the entire consultation without manual effort
- ◆ Support for clinical compliance and record-keeping

Key Insights at a Glance

- ◆ Automatic detection of doctor/patient names
- ◆ Highlights symptoms, prior treatments, and new care plans
- ◆ One-click download of summary for care team use

The screenshot displays a web interface for 'transcript'. It features a 'Transcribed Text' section with a paragraph of medical dialogue. Below this is an 'Extracted Information' section containing a table with patient and treatment details. A 'Download Extracted Info as CSV' button is located at the bottom of the table.

Transcribed Text

Hi Mr. Jones, how are you? I'm good, Dr. Sterling. Nice to see you again. What brings you back? Well my back's been hurting. You see, I've seen you a number of times for this, haven't I? Ever since I got hurt on a job three years ago, it's something that just keeps coming back. It'll be fine for a while, and down, or a little bit of pureed weight, and then boom, it just goes out again. Unfortunately that can happen, and I do have quite a few patients who get reoccurring episodes of back pain. Have you been keeping up with the therapy that we've had before? Which, the pills? Actually I was talking about physical therapy that we had you doing. The pills are only meant for short term because they don't actually prevent the back pain from coming back. Once my back started feeling better, I was happy

Extracted Information

	value
Patient name	Mr. Jones
Patient disease	Back pain
Doctor's name	Dr. Sterling
Patient symptoms	Reoccurring episodes of back pain
Treatment	Heat pads, physical therapy, yoga or Tai Chi classes, meditation therapies, non-prescription medications
Previous medication	Tramadol, physical therapy
