Warehouse Management System

DynaTech's Warehouse Management System (WMS) is a comprehensive solution built on Microsoft Dynamics 365 Supply Chain Management, designed to optimize your warehouse operations. Our WMS empowers businesses with:

Enhanced Operational Efficiency	Informed Decision-Making	Cost Optimization

Features

✔ Automated Goods Receiving
Enable seamless inbound material flow by capturing key data such as purchase orders and quantities during the receiving process.

✔ AI-Driven Order Fulfillment
Optimize outbound processes with AI-powered algorithms for order picking, accommodating various picking methods.

✔ Cross-Docking and Quality Control Integration
Support cross-docking operations and integrate quality control measures within the inbound flow.

✔ Automated Packing Suggestions
Provide automated packing recommendations to streamline the order fulfillment process.
